Anyway Clip 90

Clip hinges with adapter mounting plate

24

- Anyway Clip 90 hinges series features a particularly easy and secure attachment system connecting the hinge arm and the mounting plate from a variety of angles as opposed to just one, maximum ease in mounting even on large doors where more hinges are required.
- Simply click on the hinge to the plate in any sequence.
- Accidental release is impossible.
- Anyway Clip 90 hinges can be fitted to frame construction cabinets by using a face frame adapter plate made of die cast. The adapter plate is equipped with front tabs aligning the plate on the face frame for correct mounting.
- Copper, Nickel-plated finish, high corrosion resistance.
- Anyway clip 90 features independent adjustment of the door in three directions, including side-to-side automatic adjustment.

Overlay automatic adjustment:

turn screw No.1 to increase or decrease door overlay (+ 0.5 mm up to - 4 mm).

Vertical adjustment:

loosen screws No. 3, adjust door and tighten screws again (4 mm range).

Front adjustment:

loosen screw No. 2, adjust door to desired position and tighten screw again (3 mm range).
